Job title:

Apprentice Automotive parts remanufacturing assembly operative

Job roles:

- Receive parts for recycling, dismantle and sort as required
- Follow cleaning and blasting process of all parts with appropriate machine
- Following Quality Control Processes
- Spray painting of recycled parts using specialist spray booth
- Re-assembly of automotive part
- Testing part for any faults to ensure in full working order prior to repackaging
- Packaging and stocking of finished goods ready for dispatch.

Bespoke inhouse training and support is given to operate machinery which is part of the recycling process.

We thrive on our professional levels and ensure that everything is done perfectly. At some points it can be stressful and challenging but you will not be alone. We are looking for someone who is hard working and determined to learn and proceed in the parts recycling industry.

Our workplace is unique and a fun place to work. We are a close-knit, friendly and supportive team and we are always here if to need to talk to anyone.
